

## **Scale Free Flight Brief 106 February 2026**

Not a lot has happened over the last couple of months, bar the usual distractions of Christmas and New Year, so no January Brief.

As the new season approaches, I hope to keep you up to date with what will be happening. We are going to be busy, weather permitting.

The 2026 Scale Rule Book has now been published and is available to view on the BMFA website. Go to Members info / Downloads / Rule Books.

## **Scale Free Flight Nationals**

The Scale Free Flight National Championships will be held on Saturday 29th August at MOD Sculthorpe this year in collaboration with the FFTC, as we have done in the past. Hopefully in good weather. If the weather proves unflyable we may be able to arrange a plan B and postpone the flying to the Scale Nats at Buckminster. Trying to keep options open.

The FFTC will have a pre-entry available on their website. Regrettably the daily fees will have to rise to £20.00 for one day (fly as many contests as you like) £35.00 for two days and £45.00 for three days. Entry on the day will be available but will have a £5.00 surcharge = £25.00.

Why not have a go in the Bowden and Stan Horne comps on Sunday with a scale model. It is good fun and not too formal. Fly for 45 seconds. Easy you might think. I suspect the vintage boys think scale free flight is bonkers but I have given them a run for their money a few times with a scale model.

Fast approaching, get your skates on!!!

## Scale Calendar

As far as I am able to establish the Calendar is set for the 2026 season. Always check beforehand that the event is being run. There are a few amendments on the first issue I sent out so do check. Attached with email.
