

Scale Free Flight Brief 107 March 2026

Scale World Championships

A link is now posted at

<https://worldscale26.bmfa.uk/free-flight> for the required pre-entry for the Scale Free Flight contest in the evening of the first Saturday of the Champs. Initially the entry will be restricted to 20 entries using two sets of flight judges, two flights per set of judges.

When the entries are in, we will have a better idea of the format that is possible.

Weather permitting it will be a good-un.

Judges Handbook

This Handbook is currently being updated to be compatible with the 2026 Scale Rules. I would recommend reading this as a competitor to ensure you are fully aware of what the judges are looking for and marking. No point missing out on marks because you did not know. All the info' is there. Read the rules!

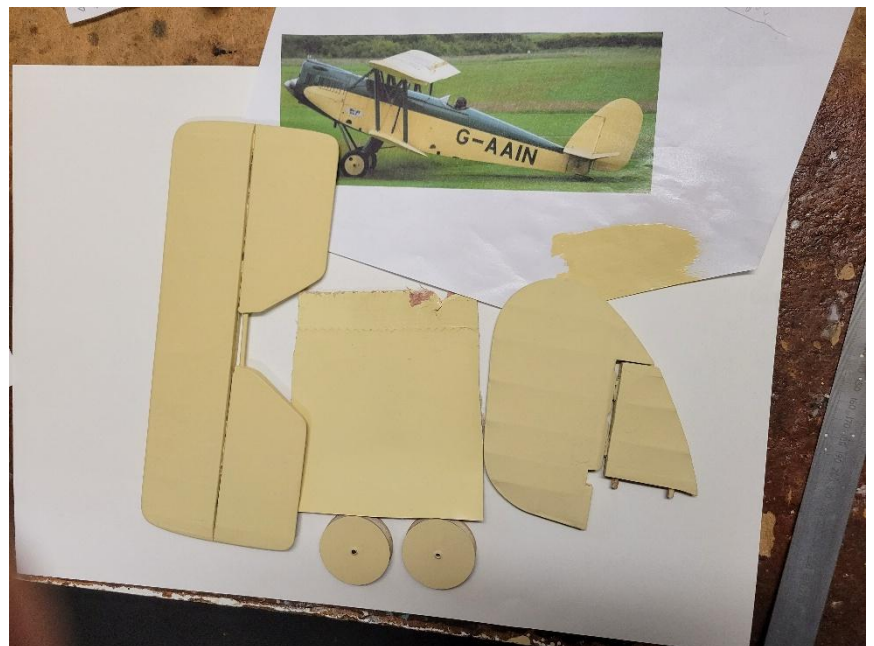

2026 Scale Rule Book can be found via the BMFA website/members info/downloads

The Handbook will be available in due course, as now, on the BMFA Scale website

<https://scale.bmfa.org/>

Parnall Elf

"Miles" of rib tapes applied.
Seemed to take forever.
I have now painted the cream colour. Very happy with the colour match. Good old Humbrol enamels. The patch in photo centre is from the Elf's recent refurbishment at Old Warden. No excuses now. Green next, along with the registration. Gosh!

MAY WELSH

BETHESDA AND BANGOR

23-25 MAY 2026
