## Team Selection - Romania 2024

British Model Flying Association  
Scale Technical Committee

We have been unable to select an F4 team for the 2024 World Championships in accordance with the selection process defined at Annex 6A of the 2023 Scale Rule Book. As a result of this we shall be holding a Team Selection event at Buckminster on March 23<sup>rd</sup>/24<sup>th</sup> 2024.

Any pilots wishing to be considered for the UK F4 team who are prepared to travel to Strejnic airfield, Ploiesti for August 10<sup>th</sup> to 17<sup>th</sup> please respond to [enquiriesbmfasc@yaho.com](mailto:enquiriesbmfasc@yaho.com) by Nov 30 2023.

The format of the Selection Event shall be determined once the number of pilots for each class F4B/C/H. As in previous years, limited financial assistance will be given by the BMFA and the STC team travel fund.

Please note that pilots must achieve the minimum standard of 70% of the available marks for both static and flight; finishing in the top three does not guarantee a team place. There is no requirement to send pilots for all classes.

Finally, there is an opening for a Team Manager. Applicants should apply with their aeromodelling CV to [enquiriesbmfasc@yaho.com](mailto:enquiriesbmfasc@yaho.com).
